CUPE BC also awarded the local a \$1,000 Diversity Scholarship for one of the members attending the Spring School in 2017. The local is fortunate to have up to date budgets and trustee reports to send along with the applications to enable us to receive this much needed assistance, as the local spends between \$15-20,000 a year in registration fees, book-off, travel and per diems for our members to receive this valuable education.

This report is respectfully submitted for the approval of the membership by
