

CUPE 391 Bargaining Update

Dear members,

We met with the employer today and continued negotiations on a new Collective Agreement. We'd like to share a quick update.

We made some good progress on several issues and look forward to meeting with the employer again on June 10th. We hope that we can continue our momentum toward an agreement.

Thank you for your ongoing commitment to each other and the local; please stay tuned for more updates from your Bargaining Committee.
